

Formulation

GLASSCOAT FOR WINDSCREEN

102150-4

INGREDIENTS:

INGREDIENTS	% W/W
Isopropanol	89.0
TEGO® Polish Additiv C 3191 (Aminosiloxane)	2.2
Tryglycol (Triethylene glycol)	2.0
Ethylene glycol (1,2 Ethanediol)	6.8

PROCESSING

Blend all ingredients in the given sequence while stirring.

REMARKS

This formulation builds up an invisible layer of hydrophobic substances on windscreen. Rain drops are removed fast and spotfree. Continuous use of whipers is not required when the formulation is used. Thin even layer of formulation is applied onto the windscreen with a dry clean cloth. After short-term drying period the layer has to be polished to obtain shiny surfaces.

Disclaimer:

This information and all further technical advice is based on our present knowledge and experience. However, it implies no liability or other legal responsibility on our part, including with regard to existing third-party intellectual property rights, especially patent rights. In particular, no warranty, whether express or implied, or guarantee of product properties in the legal sense is intended or implied. We reserve the right to make any changes according to technological progress or further developments. The customer is not released from the obligation to conduct careful inspection and testing of incoming goods. Performance of the product described herein should be verified by testing, which should be carried out only by qualified experts in the sole responsibility of a customer.
